Subject: Formosa -- Drafts Permit & FS for re-issuance
Attachments: Formosa.FS.Draft_20161213.docx; Formosa.Permit.Draft_20161213.docx

Carissa,

Attached are the draft permit & FS for reissuing the Formosa Permit (DE0000612).

First page of the FS has changes vs. the old permit. Main changes are

1. influent monitoring is included for TSS and BOD5, to verify %removal requirements are met, and
2. changed "pass" concentration (IWC) for biomonitoring from 100% to 13.7%.

I can handle EPA comments if they get back to me before I leave DNREC on 1/31/2017. After that, this permit will pass to George Mwangi. Assuming this does not come off PN by 1/31/2017, I put George in as the contact person.

Pls. feel free to call if you want to discuss.

John
